

**Dear Ms. Stommes:**

I support USDA's efforts to develop national standards for organic food and fiber products (TMD-94-00-2). However, ***I believe the following do not belong in foods grown and produced organically:***

- ☐ Genetically modified organisms
- ☐ Ionizing radiation (irradiation)
- ☒ Biosolids (municipal sludge)
- ☒ Antibiotic use in livestock

***I believe:***

- ☒ Organic food production needs to include the concepts of biodiversity and ecological harmony.

***I believe we should keep "organic" organic because:***
